

Thank you for choosing my practice for your eye care needs. Enclosed you will find history forms and a financial form to fill out and bring with you to your examination. These are lengthy but are required for most insurance companies and helps me maintain your eye health and provide you with eyewear to meet all of your daily needs. If you have any questions, just leave those areas blank and we can discuss it during your appointment. I normally dilate (use drops to help examine the back of the eye) all new patients or monitor those patients with certain medical conditions. It is best if you bring a driver and sunglasses with you if you are going to be dilated. Some other things you should bring along:

Insurance Cards

Current Identification

Eyewear

Contact lenses

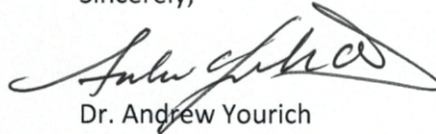

Patient forms

If you lost or need additional forms, they can be found on my website: <http://www.aecs.company>

Please visit the website it contains a large amount of information on my practice and eye health. You can also sign up for a monthly newsletter at the bottom of the first page.

I look forward to meeting you and maintaining the health of your eyes for years to come.

Sincerely,

Dr. Andrew Yourich

Optometrist
